

# Upcoming Forums for Presenting Principles

December 2007

## 12/15/07 – The State of Environmental Justice in America 2008 (Abstract Due)

The second annual State of Environmental Justice in America 2008 conference planners are inviting individuals to submit a short abstract of no more than 150 words that describes a panel or individual presentation related to the current state of environmental justice associated with the topics listed below.

Topic areas:

- 1) Success stories in assuring justice for communities
- 2) Land Use planning/sustainable community planning and development/smart growth
- 3) Just and sustainable energy policy/alternative energy production
- 4) Climate change/climate justice
- 5) Community participation in environmental decision making
- 6) Environmental justice in Indian Country
- 7) Building community capacity
- 8) Distribution of community benefits
- 9) Environmental justice and health disparities/access to public health benefits
- 10) Provision of infrastructure and resources in rural America
- 11) Facility siting and environmental justice
- 12) Environmental education
- 13) Conservation cooperation
- 14) Innovations in environmental justice legislation, regulation and litigation/environmental justice and legal case studies
- 15) Environmental justice considerations in emergency preparedness and homeland protection
- 16) Integration of environmental justice into Federal, state and local agencies policies and programs
- 17) Other topics of the submitter's choice, so long as they relate to environmental justice

The abstract should include the submitter's name and full contact information as well as reference the topic and number under which it is being submitted.

Submissions: Abstracts should be sent to: [ejinamerica@hotmail.com](mailto:ejinamerica@hotmail.com)

Relevant Dates:

Abstract Due: December 15, 2007

Notice of Acceptance Received: January 21-February 1, 2008

Response to Notice of Acceptance Due By: February 15, 2008

Presenters Contacted by Panel Managers: February 18-29, 2008

Presentations Due No Later Than\*: March 7, 2008

Conference Dates: March 26-29, 2008  
Conference Location: Washington, DC area

[\*Note: If you are submitting a paper in addition to your presentation, papers are due at this time. Please be advised that all papers will be published as written.]

## January 2008

### 01/27-01/30 – The Eleventh Annual Energy and Environment Conference, Tucson, AZ

Westin La Paloma Resort and Spa,  
Website: [www.euec.com](http://www.euec.com)

The 11th annual Electric Utilities Environmental Conference (EUEC 2008) expo, workshops and training sessions will be held January 27-30, 2008 at the Westin La Paloma Resort and Spa in Tucson, Arizona. Over 1350 delegates attended EUEC 2007. Over 300 technical presentations are made by world leading experts in 5 tracks on Clean Air, Mercury, Global Warming, Renewable Energy and other current issues that impact the energy and environmental sectors. Over 150 exhibiting company booths are set-up in the area leading to the conference technical sessions where all networking lunches, receptions and snack breaks are held buffet style.

Contact: EUEC  
Phone: 520-615-3535  
Fax: 602-296-0199  
E-mail: [info@euec.com](mailto:info@euec.com)

### 01/28-01/31 – AESP's 18th National Energy Services Conference (NESC), Clearwater Beach, FL

This premier event features industry thought leaders and practitioners who are devoted to a single cause - the exchange of information on the energy efficiency and demand response issues facing our industry. This year's conference will feature case studies and presentations on all aspects of energy efficiency and demand response, including:

- \* Program Implementation
- \* Marketing
- \* Technology
- \* Pricing and Demand Response
- \* Market Research and Evaluation
- \* Energy Efficiency Policy
- \* Climate Change
- \* Renewable Energy

## February 2008

### 02/21-02/22 – Efficiency and Renewable Energy Summit, Orlando, FL

Website: <http://www.acius.net/Conferences/Upcoming?view=overview&id=42>

As the future landscape for the energy industry evolves, industry leaders are turning towards efficient and renewable energy as a means for a cleaner source of generation, security of supply and the need to ensure a diverse portfolio of energy sources. Questions remain on finding the most efficient and economical way to ensuring these cleaner alternatives for energy productions can meet the world's energy demands. ACI's Efficiency and Renewable Energy Summit will assemble top executives in the energy and utilities industry who can present their successes in addressing performance and strategies through their own renewable energy projects. Our prestigious speaking faculty will discuss timely issues such as investing in solar energy, how renewable energy certificates and policies are changing the energy industry, the potential role of biomass energy and a practical approach to wind integration to name a few topics.

## April 2008

### 04/07-04/08 – EIA Energy Conference, Washington, DC

Washington Convention Center

Website: [http://www.eia.doe.gov/eia\\_conference\\_2008.html](http://www.eia.doe.gov/eia_conference_2008.html)

EIA's annual energy conference commemorates 30 years of providing energy data, information and analysis. In 2008 the usual one-day Data and Outlook Conference has been expanded to two days to include more sessions on a wider range of energy-related topics. Sessions include:

- \* 2008 EIA Summer Fuels Outlook
- \* 2008 EIA Annual Energy Outlook
- \* Peak Oil: Has the World's Oil Production Peaked?
- \* The Outlook for Energy and Climate Legislation
- \* The Role of Energy Efficiency in Meeting Future Demand
- \* A Conversation with EIA's Administrators
- \* The Future of LNG: Growth Spurts or Growing Pains?
- \* Renewable Portfolio Standards: Costs and Benefits
- \* Tracking Changes in Energy End Use: EIA's Consumption Surveys
- \* New Baseload Generation: Coal or Nuclear?
- \* Growth in Petroleum and Other Liquids Demand in the Developing World
- \* EIA's Contribution to Understanding Electricity Markets For 30 Years
- \* Energy and the Macro-economy
- \* Electric Generation Technologies: Their Potential Role in Reducing GHG Emissions
- \* Petroleum: Keeping Pace with a Rapidly Changing Sector

## 04/11-04/12 – 2008 MIT Energy Conference, Cambridge, MA

Marriott Hotel in Kendall Square

Website: [www.mitenergyconference.com](http://www.mitenergyconference.com)

What is the MIT Energy Conference? The goal of the MIT Energy Conference is to bring together leaders in the fields of technology, policy, industry, and finance to develop solutions to capitalize on the tremendous opportunities present in today's energy markets. The confluence of environmental and security concerns have created an opportunity for fundamental change in the way the world produces and consumes energy. The MIT Energy Conference will showcase the most promising technology and policy approaches that have the potential to achieve critical scale and make a significant impact on the global energy landscape.

## 04/29-04/30 – Ceres 2008 Conference, Boston, MA

Renaissance Boston Waterfront Hotel

Website: <http://www.ceres.org/events/>

Ceres is an environmental coalition that has been behind the climate disclosure process, developed and spun off the Global Reporting Initiative, and has been pressing for SEC disclosure and quantification of climate risks. They're concerned with environmental justice issues.

The Ceres Conference 2008: Building Leadership, Creating Solutions comes at a pivotal moment. National elections are looming, and with them the promise of forward-thinking climate and energy policies that might enable the U.S. to regain global leadership at a critical moment in history. The annual Ceres conference is a unique gathering of corporate, environmental, investor, governance, and labor leaders who share a collective vision of sustainability and capital markets functioning side by side.

## May 2008

### 05/11-05/14 – Alternative Fuels & Vehicles National Conference + Expo 2008, Las Vegas, NV

Rio All-Suite Hotel

Website: <http://www.afvi.org/NationalConference2008/>

Alternative fuels and advanced transportation technologies will be featured in the largest industry event of its kind in the world. The 14th annual conference brings together public and private fleets and other government and industry stakeholders who share the mission of advancing the use of alternative fuels and advanced technologies in the marketplace.

The annual conference features more than 200 speakers and is expected to draw 2,000 registrants for four days of activity, including workshops, sessions, networking, a Ride-n-Drive, a free public forum, and a trade show for fleets. The tradeshow features over 100 exhibitors, displaying products and services available for purchase and use today. Attendees see cutting-edge vehicles and technologies from exhibitors who share the practical knowledge their businesses have gained through real-world applications.

Contact: Alternative Fuel Vehicle Institute

Phone: 702-254-4180 • Fax: 702-254-4630

E-mail: [eventsupport@afvi.org](mailto:eventsupport@afvi.org)

## 05/14-05/17 – 2008 Black Enterprise Entrepreneurs Conference & Expo, Charlotte, NC

The Westin Charlotte

Website: <http://www.blackenterprise.com/events/beec.asp>

The Black Enterprise Entrepreneurs Conference + Expo, hosted by General Motors, features four days of business, motivational, and leadership seminars designed to empower and profit emerging and established minority businesses.

## 05/16-05/16 – California Climate Action Registry Annual 6th Annual Conference, San Diego, CA

San Diego Marriott Hotel & Marina

Website: <http://www.climateregistry.org/EVENTS/Conference/>

CCAR is a public/private partnership that is developing the GHG reporting protocols for California and influencing the Multi-state Climate Registry. Environmental justice is a huge issue in California, particularly as it relates to GHG cap-and-trade programs, so a reasoned discussion of the concerns may be welcomed. Approximately 1000 attendees are expected to attend the annual spring conference, which brings together leading experts from the business, government, NGO and academic communities to discuss the key questions and latest developments related to climate change policy and business strategy.

## 05/20-05/22 – Green West Expo & Conference 2008, Los Angeles, CA

Los Angeles Convention Center

Website : <http://www.GreenWestExpo.com>

An all-inclusive green event, Green West features the full spectrum of green, organic, and environmentally-friendly products and services, allowing for synergistic purchasing across all categories. The show includes a special feature on renewable energy and alternative power and fuels.

Contact: Suzanna Rosemont at Green Media Enterprises

Address: 11911 San Vicente Blvd., Suite 265, Los Angeles, CA 90049

Phone: (310) 984-6919

## October 2008

### 10/08-10/09 – 31st World Energy Engineering Congress, Washington, DC

Gaylord National Convention Center on the Potomac

Website: <http://www.energycongress.com/>

Presented by Association of Energy Engineers (AEE)

The WEEC conference and expo target the complete spectrum of technologies and services of greatest importance to our delegates in attendance, including, but not limited to:

- \* Renewable and alternative energy
- \* Combined heat & power / cogeneration / distributed generation
- \* Integrated building automation & energy management
- \* Lighting efficiency
- \* HVAC systems and controls
- \* Thermal storage and load management

- \* Boilers and combustion controls
- \* Geoexchange technologies
- \* Solar and fuel cell technologies
- \* Applications specific to federal energy management programs
- \* Energy services and project financing

Phone: 770-447-5083
