**Presenting our dynamic
AABE Talk speakers**

AABE Talk: Maximize Your Energy: Authenticity, Leadership, and Innovation

TED Talks are popular speaking events that provide thought leaders a platform to share ideas addressing a wide range of topics within the research and practice of business, science, technology, and culture, etc. The TED Conference slogan of “**Ideas Worth Spreading**” captures the ultimate goal of the speaking experience, which is to exchange ideas through the art of storytelling and dialogue.

The Atlanta Chapter of the American Association of Blacks in Energy® is presenting its own program - **AABE Talks** - to share ideas about maximizing our energy as industry professionals through the lenses of authenticity, leadership and innovation.

Our dynamic lineup of speakers includes **Ron Clark** (The Ron Clark Academy), **Ralph Cleveland** (Global Energy Industry Executive), and **Nichole Miles-Sullivan** (Director, Customer Care Operations, Southern Company Gas), who will present their ideas and perspectives about authenticity, leadership and innovation.

Immediately following the program, attendees are welcome to join us for **networking, heavy hors d'oeuvres, and adult beverages**. A valid I.D. must be presented in order to be served.
