Telisa Toliver

Sr. Vice President, Business Development & Commercial
Chevron Pipe Line Company

Telisa Toliver serves as Sr. Vice President for Chevron Pipe Line Company, which manages transportation risks, provides reliability assurance and leverages pipeline commercial and technical expertise for the benefit of Chevron business units.

She was named to her current position in 2011 and is responsible for managing business development efforts associated with Chevron Pipe Line Company's transportation activities for oil, gas, natural gas liquids (NGL) and products. Telisa also oversees the management of CPL's interests in all non-operated joint ventures and manages acquisitions and divestitures.

Telisa currently serves on the Board of Directors of the World Affairs Council and the American Association of Blacks in Energy. She also is the Co-Chair for the National STEM Initiative for the Links, Inc.
